A HOLE IN THE GROUND

This "Hole in the Ground" represents the unfinished Swimming Pool. We are leaving it here as a constant reminder of our need to complete this project for the young people of this community.

Let It Be a Living Memorial

A MOVEMENT IS IN THE MAKING to honor Bulloch county's World War II dead.

A memorial will be proposed to reverse those youth of our county who gave their lives, thinking that the sacrifice was for permanent freedom for those they loved and for a lasting peace for the nations of the world.

It is right and fitting that we be reminded of the sacrifice made by those who served and died. The movement for such a memorial will have the approval of all the citizens of Statesboro and Bulloch county.

A committee is to be named to handle all the details, involving the campaign for funds with which to provide the memorial and the selection of a suitable memorial.

We are not now suggesting to this still unnamed committee what sort of memorial they should consider.

Just say that we are thinking out loud.

The first reaction to the very word "memorial" or the idea of honoring our war dead is to visualize a monument.

We see a beautiful marble statue or form with a bronze plaque covered with raised words eulogizing those we would honor.

Beautiful, impressive—but cold and hard. A beautiful and impressive monument on the courthouse square or in the city park.

A beautiful and impressive dedication ceremony. With the band, a speaker, flags, a prayer.

It Could Have Been Your Child

"IT COULD HAVE BEEN YOUR CHILD" is fast becoming a stock phrase in our editorial columns.

Recently, Joseph Wilson, just a kid, was hit by a car while crossing South Main street near Inman street. He is still in the local hospital.

Joseph could have been your child.

The State Department of Health this week reports that last year 187 children in Georgia were killed in automobile accidents.

Breaking the figures down into age groups, the report reveals that 32 children in the one year to four years old group were killed in auto accidents; 41 children in the five to nine years old group were killed in auto accidents; 35 children in the ten to 14 years old group were killed in auto accident;

AUTUMN AFTERNOON

The Editor's Uneasy Chair

The Almanac Says the Weather this Week On . . .

TODAY, THURSDAY, October 7, will be warmer.
FRIDAY, OCTOBER 8, will be warmer.
SATURDAY, OCTOBER 9, will be stormy.
SUNDAY, OCTOBER 10, will be rainy.
MONDAY, OCTOBER 11, will be clearing.
TUESDAY, OCTOBER 12, will be colder.
WEDNESDAY, OCTOBER 13, will be fair.

. . . But Don't Blame Us If the Almanac is Wrong

O LORD forgive my sin,
And deign to put within
A calm, obedient heart, a patient mind;
That I may murmur not
Though bitter seem my lot;
For hearts unthankful can no blessing find.

STOP WHERE A STOP SIGN SAYS STOP—There is now no excuse for accidents at street intersections in Statesboro. If there should be a crash at the main thoroughfares it will be due to the carelessness of one or both drivers.

The city has erected "STOP" signs at all the principal street intersections, making it absolutely plain which car has the right-of-way.

The "STOP" signs are of a new standard type, used throughout the country. They are luminous at night and are set low enough that headlights will reflect the sign perfectly.

These signs represent a big investment on the part of the city. Of course, you and we pay for them in the end . . . and for us to realize on our investment we must obey the warning they shout at us.

Stop where a stop sign says "STOP."

THE CENTRAL OF GEORGIA'S "Nancy Hanks" and the Georgia Power Company really got together in the interest of the Georgia Tech football fans who live along the "Nancy" tracks between Savannah and Atlanta.

Fans from Statesboro board the "Nancy" at Dover at 8:57 a. m. and ride to Atlanta. They arrive at 1:40 to find a special bus at the Terminal curb. The bus takes them to Grant Field, puts them out one of the main gates to the stadium and is waiting for them when the game is over to take them back to the Terminal, and gives them about an hour to mull over, weep over, or shout over the results of the game before the "Nancy" takes off for home at 6 p. m. And if you live in Statesboro, you're back home in time to tell the family about the game before you go to bed.

If you are a University of Georgia fan, the "Nancy" lets you off at Tenuille, where a bus meets you to take you directly to Athens and brings you back to catch the same "Nancy" carrying the returning Tech fans. At Tenuille is where the fun begins.

You eliminate the dread that accompanies an auto trip from here to Atlanta or Athens. No traffic to back. No worry about getting there on time. No worry about hotel reservations. You arrive relaxed. You leave relaxed. You find plenty of friendly fans aboard the train with whom to replay the game, to argue over the plays.

ORCHIDS TO WHOM ORCHIDS DUE—Only 1,000 ladies received orchids at the "Grand Opening" of H. Minkovitz and Sons here last Thursday and Friday mornings. But Mr. Ike Minkovitz, manager of the "new" store, says, "Orchids should go to everybody." He is happy about the whole thing.

AND WE SAY, "CONGRATULATIONS"—The "Grand Opening" sale continues through Tuesday of next week. People are still coming in and are pleased with the "new look" of the store. There are those who agree that no department store in town of much greater size than Statesboro can match it in beauty and design. The fashion show was a "honey."

The "new look" in the store makes shopping easier and con-

From where I sit... by Joe Marsh How to Lick a Problem

Farmers in our county are mighty worried about the epidemic of grain weevil—feel it's just about time the Government or State took action. They agree that something should be done—but they all feel that someone else should do it.

They should take a look at the Brewing Industry which—soon after legal sale replaced Prohibition—felt that something should be done to protect the good name of beer and the people who enjoy it.

But they didn't wait for the Government, or State, or "some one else" to do it. They did it themselves—with their program of Self Regulation, by which taverns are regularly inspected—and any not up to scratch are warned to clean up, or risk being closed up.

From where I sit, any group or industry that waits for someone else to solve its problems, either by law or outside action, should take a hint from the brewers, who found a way to really get results!

What does your bank consider a good loan?

It's a good loan when it can meet these tests: Is the purpose of the loan constructive? Will the loan really help the borrower? Can the loan be made without contributing to rising prices? Can the borrower repay the loan out of his earnings without hardship? When the answer is "yes" to these questions, the loan is most likely to be approved.

With this exclusive Dodge process you can start off at 40 miles per hour. After 250 miles, car speed may be increased at the rate of 5 miles per hour for each 25 miles traveled. At only 350 miles your engine is ready to "go".

No tedious "break-in" period is necessary for new Dodge owners. With Dodge you can drive at a brisk pace right from the start. Dodge actually "speed-proofs" your engine... gives cylinder walls a protective oil-absorbing coating that guards against damage during the critical "break-in" miles. This process is exclusive with Dodge at no extra cost to you.

Stop by your Dodge Dealer and look over today's luxurious Dodge. Check the other big advantages Dodge offers... All-Fluid Drive... Full-Floating Ride... Chair-High Seats... extra-roomy interiors.
